

BD PHASEAL INFUSIONSET C50

BD PHASEAL Infusion Set C50

PZN: 15731790

Inhalt: 100 St

Hersteller: Becton Dickinson GmbH

Zweckbestimmung

The Infusion Set 515300 is a standard IV administration set, gravity feed, with an in-built BD PhaSeal Connector, providing a dry connection to facilitate closed transfer of hazardous drugs to IV bags. The 515300 has a Flow-stop for easy priming. 20 drops

Zusammensetzung

The BD PhaSeal Closed System Drug Transfer Device is an airtight and leak proof closed system drug transfer device (CSTD) that mechanically prohibits the transfer of environmental contaminants into the system and the escape of drug or vapor concentrations outside the system, thereby minimizing individual and environmental exposure to drug vapor, aerosols and spills. The PhaSeal systems also prevent microbial ingress.
