

BD PHASEAL ADAPTER C70

BD PHASEAL Infusion Adapter C70

PZN: 15731809

Inhalt: 100 St

Hersteller: Becton Dickinson GmbH

Zweckbestimmung

The intended use of the BD Phaseal Infusion Adapter is to administer fluids from an Intravenous (IV) container to a patient's vascular system through an IV vascular access (i.e., needle or catheter inserted into a vein). The Infusion Adapter mates with the PhaSeal Injector bayonet fitting to help prevent hazardous drug leakage into the environment during preparation of the infusion.

Zusammensetzung

The BD PhaSeal Closed System Drug Transfer Device is an airtight and leak proof closed system drug transfer device (CSTD) that mechanically prohibits the transfer of environmental contaminants into the system and the escape of drug or vapor concentrations outside the system, thereby minimizing individual and environmental exposure to drug vapor, aerosols and spills. The PhaSeal systems also prevent microbial ingress. Components of BD PhaSeal Infusion Adapter: Spike: ABS Connector Housing: ABS Membrane: Thermoplastic elastomer (TPE) Tubing: PVC Slide Clamp: Polypropylene (PP)/Polyethylene (PE) Male Luer Adapter: ABS Cap with filter: Polyethylene (PE)
